

The Premier Energy Training Workshop
and Trade Show for Federal Agencies

Siemens/SGS to Exhibit at the Fourteenth Annual GovEnergy

Siemens will exhibit at this year's GovEnergy, held August 7-10, 2011 in Cincinnati, Ohio. This workshop and trade show provides effective energy management training to federal employees and government stakeholders. GovEnergy fosters opportunities to further educate and encourage the best application of practices, products, and services as they relate to energy efficiency, renewable energy, and water efficiency within the federal sector.

Don't miss this valuable networking opportunity and meet with the industry's top technical experts. Be part of the action and stop by the Siemens booth!
