SIEMENS GOVERNMENT TECHNOLOGIES, INC. NAMES BARBARA HUMPTON AS CHIEF OPERATING OFFICER

ARLINGTON, VA, December 3, 2014 – Barbara Humpton has been named Siemens Government Technologies (SGT) Inc.'s first Senior Vice President and Chief Operating Officer (COO). Humpton joined the company as Senior Vice President for Business Development in 2011.

In being elevated to COO, Humpton will have overall responsibility for ensuring that SGT has the most effective and efficient processes in all operations, from identifying business opportunities to winning new work and then ensuring that what Siemens delivers to its federal customers is of the highest quality and the best value.

"I asked Barbara to join SGT when we stood up over three years ago because of her business acumen. She has been instrumental in helping us achieve significant growth for Siemens in the Federal market. We are poised to grow even further and Barbara's strategic vision and management skills have become even more essential," said Judy Marks, SGT's president and Chief Executive Officer.

Earlier in her career, Humpton had leadership positions at Lockheed Martin and Booz Allen Hamilton.

###

Siemens Government Technologies, Inc. is a federally-compliant U.S. organization structured to provide answers for some of the nation's most challenging issues within the federal market in infrastructure, energy, industrial automation and healthcare. The company is the leading
